

Brownstone Surrogacy

Detailed Compensation Sheet for Surrogates

AN INTRODUCTORY NOTE

This compensation summary is meant to be Brownstone's *default* compensation and benefits structure. While there are certain benefits on which we insist (e.g., life insurance, mental health support), we believe that *you* know what compensation and benefits would work best for *you*. We expect surrogates not to vary significantly from the amounts below, but we will work with you to make any requested changes pre-match so that we to present your potential intended parents with an accurate picture of your compensation and facilitate contract negotiations.

We would be happy to discuss this sheet and answer any questions you may have!
